

The Unrivaled Healthcare Endpoint OS and Management Solution for Citrix Workspace

Stratodesk software secures and manages healthcare VDI, Cloud and IoT devices

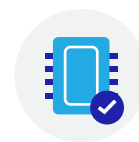

Stratodesk software is fully secure, automates endpoint management, and comes with the latest Citrix workspace app client directly out of the box. With Stratodesk software healthcare IT can:

Deliver Citrix sessions to healthcare professionals wherever and whenever they need them

Manage thousands of devices, x86 & ARM, securely via Stratodesk NoTouch Center

Power the future of work with BYOD, remote work and an OS powerful enough to run on the latest hardware devices

Stratodesk software is a true VDI/IoT solution, powering healthcare innovation of the future and IoMT to save lives.

- ✓ Full Imprivata integration
- ✓ Save valuable IT resources with centralized endpoint management
- ✓ Run Stratodesk software on-premises or in the Cloud
- ✓ Solve cutting-edge healthcare IoMT use cases with Stratodesk NoTouch IoT

Stratodesk NoTouch Desktop reduces PC replacement budget in a typical healthcare environment by **40%**.

Stratodesk NoTouch saved **13 weeks** of IT technician per year and **30k** from repurposing laptops in higher education.

Stratodesk rolled out **10k** endpoints in only a couple of weeks!

At HIMSS'20, join us to see

- ✓ Live Demos of NoTouch Desktop, Imprivata on NoTouch and the Citrix Ready workspace hub—plus the cutest swag at the show!

Find our Citrix-compatible product(s) on the **Citrix Ready Marketplace**
