

The Most Efficient and Secure Printing for Healthcare Organizations

Enterprise print management designed to fit IT Admins and end users alike

Tricerat provides the complete solution for printing, with benefits specifically designed for healthcare IT Admins.

Printer proximity-based printing

Mobile device printing

Remain HIPAA compliant

Easier for admins and end users

As a Citrix partner for over 20 years, Tricerat is uniquely qualified to help you simplify your virtual environment. With Tricerat technology, a system admin can build Citrix printers effortlessly.

- ✓ No print drivers to manage Citrix Virtual Apps and Desktops
- ✓ Increase performance by reducing logon times and spooler crashes
- ✓ Decrease time spent managing compability issues
- ✓ Allow end users to print to any device, in any location, to any printer

50% of print-related costs are indirect costs, such as help desk support, decreased productivity, and under using assets.

With Tricerat, companies experience up to **2x** higher help desk productivity, and up to **65%** reduction in printing costs.

At HIMSS'20, join us to witness

- ✓ Exclusive updates on the newest version of our software, plus a Visa gift card giveaway
