# ControlUp:
Enabling Healthcare IT Teams Deliver an Exceptional Digital Employee Experience
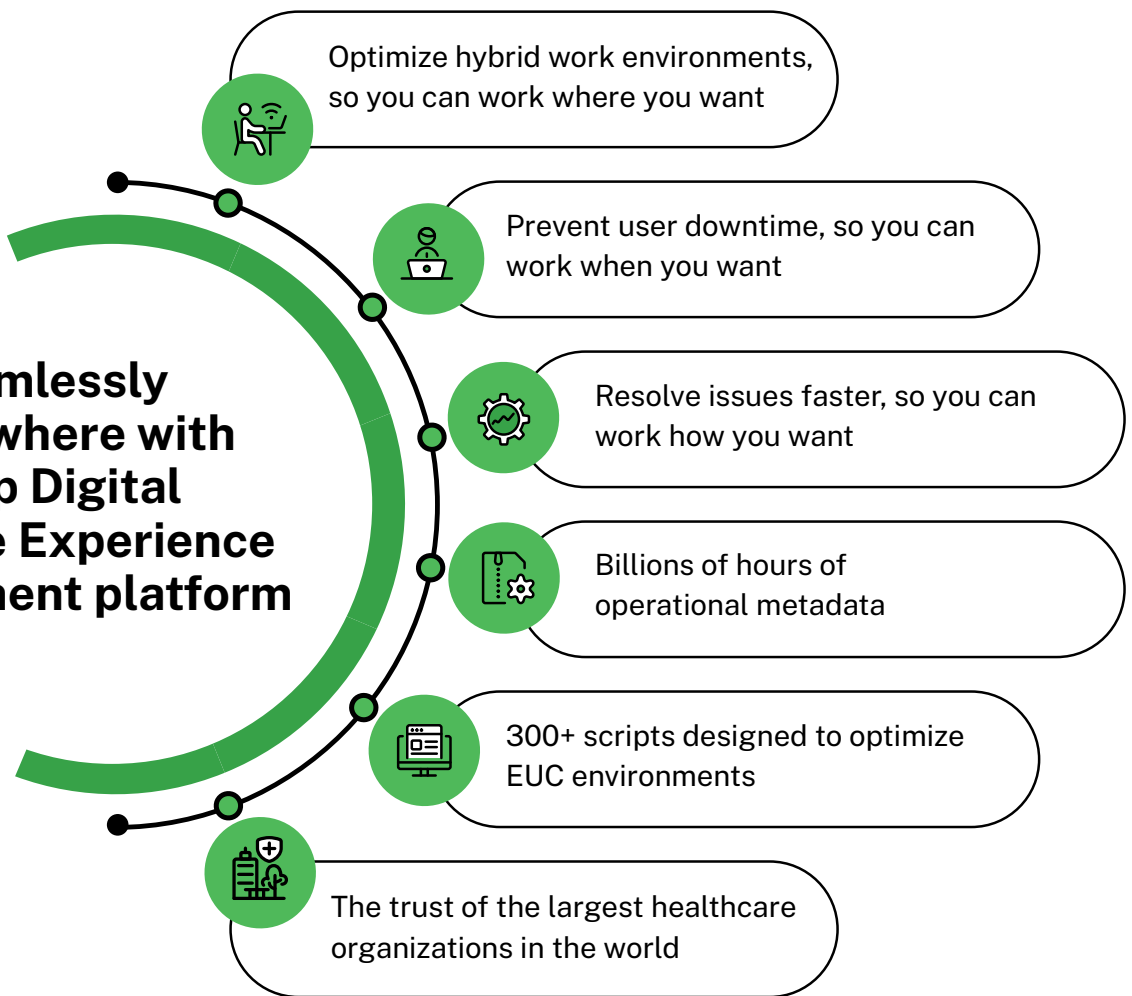

Optimize helpdesk operations, improve employee productivity, and reduce hardware & software costs

ControlUp's Digital Employee Experience management platform makes it possible for IT to:

Resolve IT tickets faster and automate problem resolution

Ensure patient care resources are available when clinicians need them

Improve performance for VDI and DaaS sessions

Work seamlessly from anywhere with ControlUp Digital Employee Experience management platform

Optimize hybrid work environments, so you can work where you want

Prevent user downtime, so you can work when you want

Resolve issues faster, so you can work how you want

Billions of hours of operational metadata

300+ scripts designed to optimize EUC environments

The trust of the largest healthcare organizations in the world

At HIMSS 23, join us to see our just-released solution for monitoring your VDI and DaaS environments.

Meet us at
Citrix Ready Partner Pavilion booth 674
