

Data Sheet

MetrixInsight for ADC

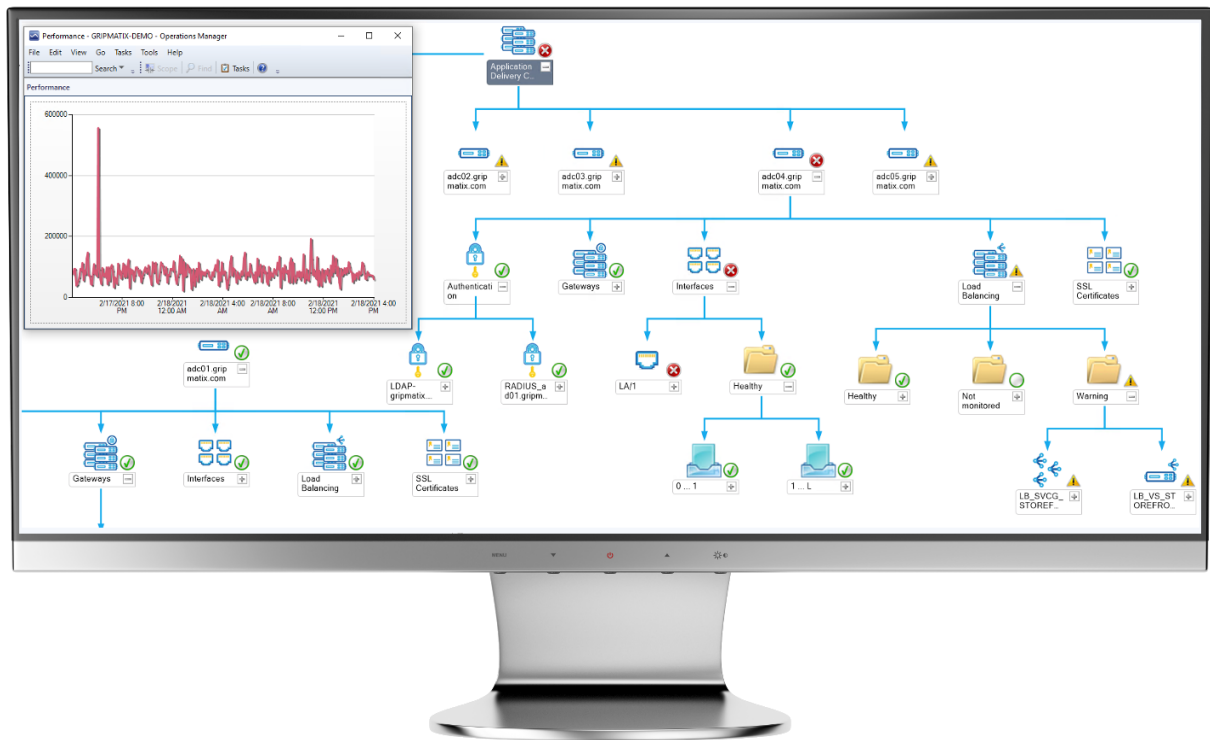

Overview

MetrixInsight for ADC is a SCOM Management Pack for monitoring Citrix Application Delivery Controllers. Formerly known as Citrix NetScaler.

The solution dynamically discovers and visualizes the ADC appliance topology within a single pane of glass to monitor its Authentication, Gateway, Load Balancer, Certificate and Interface components and services.

Authentication

LDAP and RADIUS authentication actions

State Monitoring and Alerting

State Monitoring and Alerting

State Monitoring and Alerting for all ADC component and service layers to alarm you whenever a service gets, or may get disturbed, components fail, or resources are low

Certificates

TLS/SSL certificates

Performance and Utilization

Performance and Utilization

Performance and Utilization data collection for dozens of metrics giving insight into the utilization and performance of the ADC appliance

Gateways

Citrix Gateway Virtual Servers

Integration

Integration Feature

Integrates with MetrixInsight for CVAD to get even richer topology views

Load Balancing

Load Balancing Virtual Servers, Service and Service Groups

Squared Up Dashboard Pack

Integrates with Squared Up by using our free available community Dashboard Pack for MetrixInsight for ADC

Interfaces

Interfaces

Product Updates

Regular product updates with new features and improvements

Presentation

Alert views, State views

Performance views

E-mail support

Response time within 24 hours

Topology views

Single-Pane-of-Glass Dashboards

Product knowledge

Product Knowledge for Monitors and Alerts to quickly solve problems

Squared Up Dashboard Pack

We have created a Squared Up Community Dashboard Pack with more than 20 drill-down views to complement our MetrixInsight for ADC SCOM Management Pack. Squared Up is a HTML5, extremely fast, multi-platform web console. This dashboard pack along with our SCOM Management Pack is able to give you the full Citrix Application Delivery Controller topology monitoring experience.

More information about this dashboard and how to get it, you can find [here](#).

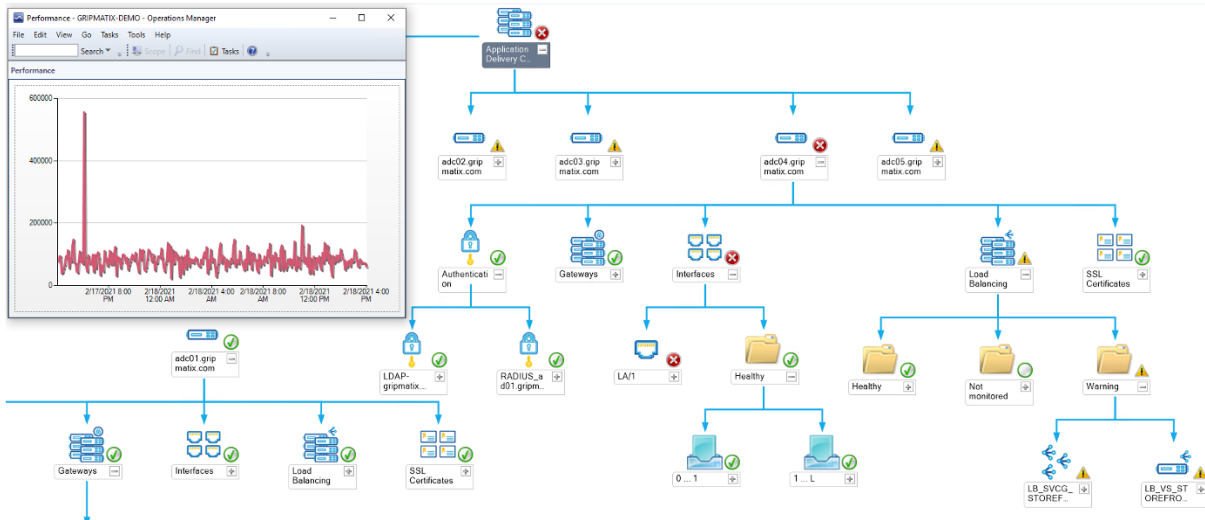

Supported software versions

- Citrix Application Delivery Controller 11.x and higher

Impression

An impression of our management pack in action.

Licensing

Our products are licensed on a **volume based annual subscription license** model. This means that there is no big upfront investment for you, but you pay yearly as long as you want to use our products. We believe this kind of licensing model fits perfect in the Cloud era we live in today.

Our licenses are bound to one or more Citrix ADC appliances within a single SCOM Management Group environment.

Microsoft Partner Solutions and Citrix Ready

We continuously work hard to get the highest quality for our solutions. Therefore, we are delighted MetrixInsight for ADC has been certified as [Citrix Ready](#) in the Citrix Ready Marketplace.

From there you can always find our website to get a [free trial](#) or [paid subscription](#).
