Clinical Digital Experience
Happy Clinicians, Better Care, Lower Cost

Nexthink mission is to empower our customers and partners to deliver a fantastic digital experience to all employees, regardless of how they consume desktops and applications. Nexthink Experience delivers:

- Nexthink Supports over 1.3M+ healthcare workstations
- Nexthink Value Delivered

Quickly uncover the context, impact, and scope of issues
Shift from Reactive to Proactive Problem Resolution
Enable IT to Deliver Higher Clinical Satisfaction

Continuous Realtime Workplace Analytics across all devices
Insight-Driven Automation and Remediation
Contextual Sentiment Analysis for Clinicians

Nexthink measures the health and detailed actions of endpoints and applications as well as clinicians’ direct feedback on their perceived experience.

At HIMSS22, join us to witness:

- The power of Healthcare Digital Experience to improve outcomes and lower cost.
- How gathering experience data from Citrix environments is critical to improving experience.
- A new way of prioritizing support that is driven by actionable intelligence.
