

# Modern Infrastructure for Better Digital Learning Experience

Simplify and accelerate hybrid and multicloud Citrix Deployments with Nutanix Cloud Platform

Citrix Ready  
Partner Pavilion

EDUCAUSE  
2021

Booth \_\_\_\_\_

#907

## Boost your IT infrastructure with the power of Nutanix Cloud Platform

### Enhanced security

Prevent data theft and loss from ransomware and malware; adhere to regulatory, compliance, and data privacy requirements.

### Simplified operations

Provide consistent access to apps and data; support more end-users without increasing complexity.

### Faster deployments

Standardize the end-user environment, streamline deployments, and provide flexibility and scalability regardless of location.

## Nutanix and Citrix Team to Power Future of Work

### Nutanix will become a Citrix preferred choice for HCI hybrid and multicloud deployments.

Customers will be able to take advantage of Nutanix industry leading HCI—whether on-premises or in the public cloud—delivering simplicity, cost advantages, and a unified management plane enabling workload portability across clouds.

### Citrix will become the preferred enterprise end user computing solution on the Nutanix Cloud Platform.

The solution is the market-leading virtual desktop infrastructure broker for thousands of Nutanix customers including the largest global enterprises, and customers will be able to take advantage of it to create a unified digital workspace platform that delivers application and data security, IT efficiency, and productivity across all vertical and use cases.

## Visit us at the Citrix booth to witness how we are joining forces to help customers

- Deliver secure, reliable work from anywhere.
- Get elastic access to apps, desktops, and data from any device, in any location, and at any scale.
- Deploy Nutanix hyperconverged infrastructure (HCI) and hybrid multicloud deployments of Citrix DaaS and Virtual Apps and Desktops services.
