Tintri

Manage Your Desktops, Not Your Storage

Scale Storage Differently with VM-aware Storage

PRODUCT OVERVIEW

Storage Made Simple

T800 Hybrid-Flash

T5000 All-Flash

- VM-level performance isolation eliminates I/O boot storm
- Ease of management enables you to focus on desktops
- Low cost per desktop with the highest VM density

KEY DIFFERENTIATORS

Everything at VM-level lets you focus on your virtualized applications.

Guaranteed performance

VM-level real-time and predictive analytics

Scale-out platform from 17TB to 10PB

TINTRI INTRODUCTION

VM-aware storage is built for virtualization and cloud.

Industry leaders, including **7 of Fortune 15** companies, have trusted **70** petabytes and **600,000** mission critical VMs on Tintri.

TOP 3 BENEFITS

Performance

Manageability

Value

6x faster performance

95% less management
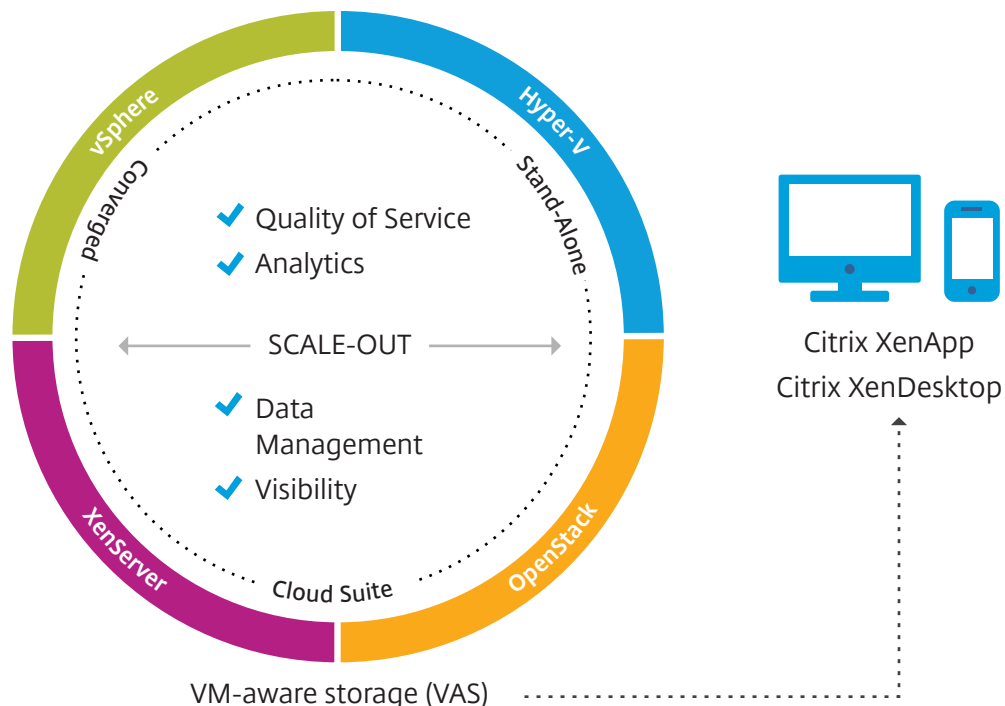

90% less storage

ESG LAB RESULT

1 Datastore to manage

8 MINS
8 minutes to install, configure and deploy the first VM

2.5 hours to deploy 1,000 linked clones

PRODUCT INTEROPERABILITY WITH CITRIX PRODUCTS

vSphere
Converged
Hyper-V
Stand-Alone
XenServer
OpenStack
Cloud Suite

- Quality of Service
- Analytics

SCALE-OUT

- Data Management
- Visibility

Citrix XenApp
Citrix XenDesktop

VM-aware storage (VAS)

To see is to believe.
