#527**

## CITRIX AND UNIPRINT EMPOWERS THE HEALTHCARE CUSTOMERS

**Secure pull-printing** reduces the risk of physical or electronic data breaches through print

**Universal Print Driver (UPD)** eliminates incompatibility issues and enhances server stability

**Centralized print management** and remote deployment reduce IT overhead

**90%**

reduction in print-related IT helpdesk calls at St. Joseph Health

**30-40%**

reduction in print-related costs upon implementation of UniPrint

## UNIPRINT, THE GO-TO DEVELOPER OF DOCUMENT WORKFLOW OPTIMIZATION

- ✔ Cloud and mobile enabled: print anywhere, anytime, from any device
- ✔ Secure Pull Printing works with existing security credentials (RFID, HID, etc.)
- ✔ UniPrint is vendor agnostic and supports legacy devices – no need to upgrade or replace hardware!

## At HIMSS'19, join us to witness

- ✔ How rethinking your healthcare printing workflow improves security and gives time back to your patients and staff
