

Stratodesk & Citrix –fueling modern, streamlined remote work productivity

Secure & Reliable End-User Computing has always been demanding for global enterprises.

For years, Stratodesk & Citrix have exceptionally managed & excelled at meeting these growing demands.

Even when remote work took precedence, we've adapted seamlessly to deliver continuous productivity - *come what may!*

The Results Speak for Themselves!

Stratodesk as your chief & versatile endpoint OS and management solution for Citrix deployments.

What Now?

Managed, Excelled, Adapted, and now *Evolved!*

Why? - to overcome the challenges of modern, remote work!

Flexibility is the Future - Leverage your Citrix Virtual Apps and Desktops anywhere in the world via fully remote ready, Stratodesk software.

Stratodesk endpoints are ready to connect to Citrix Virtual Apps and Desktops in a matter of minutes.

Leverage Stratodesk software with your endpoint deployment and benefit from:

	Stratodesk Cloud Xtension - enables secure management for external devices, simplifying work from anywhere
	NoTouch Cloud Cloud hosted SaaS offering of NoTouch Center
	Citrix Workspace app always up-to-date client included in the latest version of Stratodesk
	NoTouch GO bootable on existing hardware without replacing native endpoint OS
	Installation Option refresh legacy hardware with a modern Linux OS that leverages everything Citrix has to offer

Demands & Deliverables Money & Management

Cuts endpoint implementation time by 85%

Saves enterprises millions of dollars through PC Conversion

Stratodesk Citrix Ready Workspace Hub saves \$700-900 per endpoint!

A Holistic & Seamless Integration made Economical – the way it should be!
